

STUDENTS LIFE

Health Insurance

It is highly recommended that students maintain health insurance while studying. The Indonesian government provides BPJS health insurance, which is available to all residents. For more detailed information, students are encouraged to visit the official BPJS website. Students also can use their own international Health Insurance.

Study Permit, Visa and Stay Permit

Before arriving and living in Indonesia, foreign students must complete several important steps. First, they need to obtain a Study Permit issued by the Ministry of Higher Education, Science, and Technology. This permit allows students to apply for a Study Visa to enter Indonesia. Once in the country, all foreign students are required to register for a Temporary Stay Permit (ITAS) at the immigration office and then apply for a Stay Permit/Domicile at the Population and Civil Registration Office.
